---

- SealGreen Scraper Package includes
- 10-Inch Scraper
- 2- Adjustable Fasteners
- 2-Tie Wraps
- Pole NOT included

**SealGreen Scraper Package includes  
10- Inch Scraper, 2- Adjustable Fasteners,  
2-Tie Wraps - Pole NOT included**

**Tools Needed to Assemble Scraper  
1-Pole (broom stick), 1-Flat head screwdriver, or  
1-8mm Socket or wrench**

**Start Assembly  
Remove pole from brush or broom or poles  
available at local hardware store**

**Assembly  
Pole can be re-attached to broom or brush  
when finished**

**Assembly**

Insert the scraper handle into both adjustable fasteners and space them about 3-inches apart

**Assembly**

Space the adjustable fasteners about 3-inches apart

**Assembly**

Insert the pole between the scraper handle and the two adjustable fasteners

**Assembly**

Make sure the end of the pole is even with the bottom orange bracket

### Assembly

Securely tighten the screws on the adjustable fasteners using a flat head screw driver. Or .....

### Assembly

.... use the 8-mm socket or wrench

### Assembly

Tighten the adjustable fasteners to make a solid assembly with the pole and the scraper handle

### Assembly

Insure that the pole and the scraper handle are parallel to each other and assemble tightly

## Assembly

Insure that the pole and the scraper handle are parallel to each other.  
Assemble tightly so the pole will not twist when scraping the floor.

---

- The purpose of the SealGreen Floor Scraper is to remove mastic, glue, sealer, or paint that has been treated with SealGreen SGR1500 and or SealGreen SCR1600 removers from smooth finished floors.
- The scraper should be NEVER be use to remove untreated or hardened mastic, glue, sealer, or paint.
- A video on how to assemble the SealGreen Scraper is available at:
