

SealGreen Brick and Stone Sealer with Salt Defense Technology

Product Certificate

SealGreen Brick and Stone Sealer with Salt Defense Technology is an odorless, chemically reactive water-based solution of modified siloxane developed to effectively seal clay brick, cinder blocks, concrete blocks, split face blocks and natural stones.

SealGreen Brick and Stone Sealer with Salt Defense Technology is a one component, VOC compliant, penetrating water repellent, which contains a proprietary modified siloxane. This water-based siloxane penetrates most masonry and concrete pores and capillaries up to ¼ inch or more depending on surface porosity and moisture content at the time of application.

SealGreen Brick and Stone Sealer with Salt Defense Technology is considered a “green” sealer because it is water-based, emits no VOCs, does not break down and run off into the storm water, and becomes a permanent part of the concrete structure for 5 years.
